

Installation Notes

- Left Hand Door Lock -

During installation of the lock, please be aware of these additional steps which are not included in the printed instructions.

Before mounting the exterior portion of the lock, please ensure the spindle is positioned with the stop pin to the side as indicated by the arrow in the image below.

During installation step 3:

To avoid damage to the wire ribbon cable, fully extend cable through opening in back plate and position cable in slot as shown below. Take care not to pinch the cable between the plate and door surface.
